

PFF Fellow Profile

Fellow Name: **Christine M. Zimmerman**

Degree program / disciplines: PhD Nursing

Courses taught: Fundamentals of Nursing, Special Topics for Nursing, Special Topics for Professional Nursing, Adult Health II clinicals

Teaching interests: Undergraduate nursing, or core courses for the MSN Nurse Educator track

Research Interests: using simulation as a teaching tool in undergraduate nursing education

Career Aspirations: to continue to teach in the undergraduate program at UMKC School of Nursing

PFF Expectations: To continue to assist in developing my teaching portfolio, and provide a network of fellow teaching faculty.

PFF Fellowship Goals:

1. Learn methods which will increase engagement among students, especially when course content is taught using web-based methods.
2. Increase my capability and range of teaching methods that allow me to provide education to the student with diverse learning styles, or disabilities, which hamper traditional lecture/assessment methods.
3. Maintain methods that incorporate ethical standards, prevent the inadvertent harm of a student, and limit plagiarism and other forms of cheating.
4. Develop a network of teaching faculty, outside my professional domain, so that I remain connected to the academic world and able to infuse teaching styles from other disciplines to my area.
